

Performance in motion

The Racine Railroad Products UK logo is positioned in the lower-left area. It includes a circular icon with a stylized 'R' and the text "RACINE RAILROAD PRODUCTS UK" in a bold, sans-serif font. The background of the entire page is a photograph of a yellow Racine battery-powered tool on a railway track, with a blue semi-transparent circle overlaid at the bottom containing the main title.

# Racine Railroad Products Battery Power Tools

# Improve reliability, efficiency and safety in railway operations and maintenance.

Unipart and Racine Railroad Products UK are working in partnership to introduce a range of groundbreaking new battery powered tools for the maintenance and enhancement of the rail infrastructure. The product range provides an innovative and sustainable approach to operations by reducing the reliance on traditional power sources. Racine Railroad Products UK, a pioneer in innovative rail maintenance products, is a division of Racine Railroad Products Inc., who have been designing, manufacturing and servicing quality maintenance-of-way equipment since 1970.

## A sustainable approach to rail infrastructure maintenance

- Sustainable solution - zero emissions
- Increased safety for operators
- Portable, lightweight and ergonomic design
- Battery powered - one battery fits all tools

D-Handle Impact Wrench

T-Handle Impact Wrench

## Features and Benefits

- Sustainable solutions reducing the use of fuel
- Zero emissions generated
- Battery powered - one battery fits all tools
- Tools are portable allowing access to restricted environments

## Features and Benefits

- Lightweight and ergonomic design enabling efficiency and comfort
- Reduce risks of fuel spills and damage to the infrastructure
- Reduces hand arm vibration (HAV)
